DETAILED ACTION

Claim Objections

1. Claim 20 is objected to because of the following informalities. The term “fist” in line 4 should be changed to “first”, as apparent. Appropriate correction is required. Claims 23, 24 and 27 are objected to based upon the objected base claim 20.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 21 and 25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 21, lines 2 and 4, the term “boss” was not used in the specification to describe any referenced number in the drawings. Therefore, it is unclear which member in the drawings being claimed. Claim 25 is rejected based upon the rejected base claim.

Allowable Subject Matter

3. Claims 15, 22 and 26 are allowed. Claims 20, 23, 24 and 27 would be allowable if rewritten to overcome the objection set forth in this Office action. The following is a statement of reasons for the indication of allowable subject matter. Regarding claim 15, the prior art fails to disclose that the lens-holder having two first holes, a first magnetic path member having two

first opposing walls, a second magnetic path member having two second opposing walls and a first bottom wall that connects the second opposing walls, a magnet and coil being fixedly mounted on one of the first opposing walls, wherein the second magnetic path member is mounted to the first magnetic path member such that the second opposing walls extend through corresponding ones of the two first holes and at least part of turns of the coil are between one of the first opposing walls and one of the second opposing walls.
